

# Qmarkets is Hiring!

**Position Title:** Product UX/UI Expert

## About us:

Qmarkets, a leading Innovation & Idea Management Software Company serving the Global Enterprise Market, is looking for a new member to join our amazing global team and work on a product serving over a hundred thousand users worldwide.

## About the position (Description & Responsibilities):

Our Product Department is looking for a Super Talented UX/UI Designer to join our quest for outstanding User Experience!

Main responsibility will be turning our powerful web application software into easy-to-use products for our clients and create both functional and appealing features that address our clients' needs and help us grow our customer base.

This will include planning & designing all UX aspects of new product development:

- ) Gather and evaluate User Requirements in collaboration with Product Managers and Developers
- ) Plan & illustrate UX & design ideas using wireframes
- ) Offer engaging designs for all new product developments.
- ) Produce complete & documented product definition for the R&D team
- ) Work closely with R&D on the implementation
- ) Identify and troubleshoot UX problems (e.g., responsiveness)
- ) Stay up-to-date with modern enterprise style standards - Good eye for modern web and mobile design!

## What we are looking for:

- ) Proven work experience as a UX/UI Designer in enterprise B2B product – at least 5 years
- ) Very high level of logical capabilities – to understand a complex enterprise product
- ) Knowledge of wireframe tools (e.g. Wireframe.cc and InVision) - Needs to be able to produce understandable wireframes and explain decisions
- ) Up-to-date knowledge of design software like Photoshop/Sketch at a high level
- ) Portfolio of design projects
- ) HTML/CSS + Slicing best practices (turn a design into the HTML/CSS)
- ) Understanding of modern responsive design and how it affects layout and usability
- ) Experience in complicated WEB products/system
- ) Team spirit: strong communication skills to collaborate with various stakeholders (Product manager, R&D and more)

#### Bonus points for:

- ) Proven experience in (inbound) product management – detailed product definitions and in-depth work with R&D during the implementation
- ) Working before with teams using JS Frameworks (Vue, Bootstrap), InDesign/Figma, etc.

#### What we're offering

- ) You will have the opportunity to accelerate our rapidly growing organization
- ) We're a lean team, so your impact will be felt immediately
- ) Agile working environment with flexible working hours and location
- ) Diverse, unique colleagues from every corner of the world

If you're convinced you are the right fit and you can't wait to join our team, we look forward to hearing from you!
